

IT infinity pte ltd

About Us

Company Profile

IT INFINITY PTE LTD has always been the system integrator successfully delivering technology solutions since the 1985. We are software people who place significant emphasis on building long-term partnerships to ensure that our solutions deliver the answers to solve your business problems today and position you to meet the challenges you'll face tomorrow. It is our commitment, integrity, flexibility, and honestly to lasting customer relationships that is the backbone of our success over the past 20 years. We'll always walk that extra mile for you.

Business Solution Software

At IT Infinity, we provide our clients with a unique combination of accounting and technical expertise to meet the requirements for small and midsize businesses. We provide training & support OPENSOF online and SAGE ACCPAC. OPENSOF online is designed and built for business requiring unique packages to meet specific requirements while ACCPAC is a leading Windows accounting software and business solutions with a huge installed base of clients worldwide.

Our products are not limited just to accounting software. IT Infinity provides MICROSOFT products and many branded hardware products like **Hewlett Packard and IBM**. IT Infinity constantly review, research and acquire new competencies to develop and deliver the right solution to your changing business needs – whether to add on a new system or to modify the existing system, so to address each individual customer's unique business situations. Our focus on service quality and our common sense approach to your computing requirements is aimed at ensuring your business receives maximum benefit from your technology environment. Our customers often see us as consultant, accountant, implementer, trainer, system integrator and trouble-shooter – all rolled into one.
